March 2025

March is.....

Spring, Planting and Insects

As we look forward to the warmer weather, we will watch for signs of spring. Spring reminds us that new life is bursting forth. We will talk about some of the smallest things God made which are seeds. We will learn how to garden, what to plant and how to nurture our seeds so they can grow into beautiful plants. We will then discover how there are good bugs and bad bugs and how they can affect the growing process of our plants and gardens.
